### Need a vehicle for less than twelve months?

No problem ... Acme holds a GSA rental vehicle contract, too. Designed especially for vehicle requirements of less than a year.

**GSA Category:** 411 2

### Description:

Rental Supplemental Vehicle Program (RSVP)

**Acme Contract Number:** GS-33F-0032U

Typical rental requirements include:

- Temporary replacement of damaged fleet vehicles.
- Supplemental transportation support for fleets.
- Supplemental transportation capacity for special events.
- Transportation support for natural disasters and emergencies.

Services include pickup and return, fueling, roadside assistance, special vehicle needs, reporting, billing, and fleet consulting services.

### Acme's Fleet Management

Acme's comprehensive vehicle management services save you time and money.

- Nationwide access to vendors with competitive and consistent pricing.
- Certified technicians/experts
- All calls receive live service
- Dedicated to providing service excellence
- 24/7/365 accessibility
- Maintenance and Repair Management
- National Account Program
- License Registration and Renewal
- Emergency Roadside Service
- Fuel Management
- Rental Program
- Accident Management
- MVR's (Motor Vehicle Record Checks)
- Management Reporting

## **GSA Automotive and Schedule 751**

Schedule 751 expands options for government buyers otherwise unable to secure vehicles under GSA Automotive budgetary constraints or annual purchase timing. The 751 Schedule was created to improve timeliness of response to GSA user needs.

Acme Auto Leasing was selected and authorized to offer vehicles to the government in 2000. Since then we have had the good fortune to work with some of the nation's most thoughtful employees — always concerned with doing what is best for our government and the taxpayer.

Acme has supported every branch of government service and virtually every agency, from the Navy to the White House, and around the world from Guam to Iraq. Acme Auto Leasing LLC continues to provide vehicles for many varied projects and needs, both short and long term, adapting to suit the evolving demands of our nation, its people and its missions.

### **Acme's Competitive Advantage**

Acme's competitive advantages in products, pricing and on-time delivery summarize its best practices in the broadest sense. Combining old-school values with cutting-edge business processes, Acme professionals deliver the efficiency, affordability and personalized service that only experience can provide.

### **The ACME Difference**

With many thousands of vehicles on lease to customers with unique, specific needs, Acme meets new demands and opportunities each year with departmental expansions and system enhancements in ordering, tracking, billing, technical support and reporting.

Each government project has unique needs. In every case, Acme has understood the need, scope and specific criteria for success in order to provide the most suitable service. During the acquisition process, Acme anticipates and incorporates any contracting contingencies in securing pricing.

Some Acme innovations for government users today include:

- Wide Area Work Flow (WAWF) billing capability.
- Email invoicing options and billing format adapted to meet your needs.
- Instantaneous Pricing information.
- Continuous reporting of important manufacturer information:
  - Build-out updates and production change notices via email.
  - Quarterly reviews of recent auto developments.
  - New vehicles and results of tests.
  - Cell phone, GPS, satellite radio and other product options useful to fleet managers.

**Acme Auto Leasing LLC**  
**440 Washington Avenue**  
**North Haven, CT 06473-1311**

### **Attention Mailroom:**

If addressee is no longer available, please forward to individual responsible for vehicle procurement.
